

A BAD NEWFIE JOKE

Honorable Clyde Jackman, M.E.C

Lately I have been getting some really interesting emails from Korea, San Diego, Ontario and here in Newfoundland etc. Usually they are the environmental kind congratulating me about my cd release and some environmental interests. When I promote my new cd around the world and home, I also want to be able to promote Newfoundland and Labrador's great outdoors. Our supplies of fresh water are second to none in a world starving for pure fresh water. When I update my web site in the near future I want to be able to use before and after pictures of what our Government has done to improve the safety and quality of our remote wilderness areas. The folks who have viewed my web site in the past will be glad to see how proactive we are. AND BELIEVE ME I AM GETTING LOTS OF HITS ON THIS WEB SITE. The car wrecks and derelict old buses that are strewn across the landscape of the North Shore and our remote wilderness areas is unacceptable anywhere in the world. People who emailed me want to know what is being done to remedy this problem. I want them to come here and enjoy my music and the great stewardship our province and its people have for the land. By having tougher penalties for polluters, we should sell places like Western Bay Falls as a place your kids can swim without being poisoned upstream. This is a rare gift these days. People from Florida have commented on how beautiful it is here but were disgusted with the amount of dump sites and car wrecks in different places. As a musician who wants to promote his home I can't do it properly with a garbage dump in front of my house. LIKE I SAID I WILL UPDATE MY WEB SITE AND LET FOLKS KNOW IF TOUGHER LEGISLATION HAS BEEN PUT IN PLACE AND THAT THE REMOTE CABIN ISSUE AFFECTING WESTERN BAY FALLS AND ITS LONG TERM WATER QUALITY IS ADDRESSED. The science is there. Clean pure water is getting harder to get. We in Newfoundland and Labrador are given a great gift.

THE QUESTION I ASK IS THIS. ARE WE GOING TO CONTINUE TO BE PART OF THIS HIDEOUS NEWFIE JOKE? IT'S A PERSONAL CHOICE.

RAYMOND JOHNSON OF BUDDY WASISNAME AND THE OTHER FELLERS IS ALSO AWARE OF THIS HIDEOUS NEWFIE JOKE.

Yours in conservation
Tony O'Leary
